

Radiran Telecom

Emerald™ ICE
Integrated Communications Exchange

Future-Proof Investment

The Emerald Integrated Communications Exchange (ICE) is Tadiran's fully integrated digital phone system loaded with sophisticated features providing powerful, scalable technology at an extremely affordable price. The Emerald ICE paves the way for your future by combining functionality and value, allowing you to add new capabilities and capacity as your business needs grow. With hundreds of standard and advanced features, the Emerald ICE is ideally equipped to help your company project a professional image with minimal investment.

The Emerald ICE enables you to handle 6 CO lines, 10 Digital Stations and 2 Analog Ports, with the ability to expand to 24 CO lines, 46 Digital Stations and 18 Analog Ports.

Affordable . . . Sophisticated . . . Intelligent

Tailor the System to Custom Fit your Business

With hundreds of standard and advanced features, the fully digital Emerald ICE key system is ideally equipped to help your company process and manage your telecommunications requirements professionally and affordably. Its comprehensive feature set includes:

Integrated voicemail. Eliminate worries about losing calls or missing opportunities with Tadiran's Emerald ICE advanced 8-port voicemail featuring auto attendant, dial by name directory, and flexible message handling. You get all this and a whole lot more without sacrificing any digital or analog extension ports!

Audio Help User Guide. Increase productivity by quickly locating the specific features you are seeking at the simple touch of the help button on the telephone. The Audio Help User Guide guides you through the many features of the Emerald ICE with intuitive audio voice prompts, eliminating valuable time spent searching through manuals.

Caller ID. See who is calling every time with caller ID information displayed on telephone sets.

Answering Machine Emulation. Listen to a caller leaving a voice message with the ability to retrieve the call while the message is being left.

Call Recording Capabilities. With the optional voicemail system, all calls can be recorded and stored in your personal voice mailbox.

Emerald ICE – Flexibility and Value

This stylish 28-button telephone offers 3 interactive menu-keys, 28 dual color LED programmable buttons, a high-quality speaker, a built in headset jack and a high contrast LCD. A three-position desk pedestal also serves as a wall-mounting bracket.

The 14-button speakerphone is an affordable option, equipped with 14 dual color LED programmable buttons and a high-quality speaker. A three-position desk pedestal serves as a wall-mounting bracket.

Bottom-Line Business Benefits

- Project a professional image with a minimal investment.
- Process calls more efficiently with exceptional features like integrated voicemail, Audio Help User Guide, and caller ID.
- Protect your initial investment, adding features and functionality as your business needs change and grow.
- Improve customer service through more efficient call and message handling.
- Minimize training costs using the Audio Help User Guide (requires voicemail).
